

## We would like you to attend our Construction Education and Safety Meeting

The City of St. Anthony Village invites you to attend a public education meeting where we will discuss and share information about Street & Utility construction.

## Do you want to know:

Why do you dig through the road more than one time? How does an excavator work?

Ever want to touch a dozer?

What are the most common types of construction injuries? How can I navigate a construction site without risking injuries to the workers?

Can my kid climb on the equipment?
What is the proper technique for leaning on a shovel?
What is a sheeps foot, and why is it important?

Join us at the meeting, where you will learn answers to these questions and more!

## **WE WELCOME ANY QUESTIONS YOU MAY HAVE!**

WHERE: At the corner of Foss Road and Chandler

WHEN: Wednesday, August 15, 2018, at 5:00 p.m.

If you have any questions but are unable to attend, please call me at 763-287-7182.

Thank you, Todd Hubmer City Engineer
