

### Dangerous/Potentially Dangerous Dog Registration

Complete this registration and return it to City Hall. Upon issuance of the registration, the city will provide the owner with a uniform warning symbol provided by the commissioner of public safety to be placed on the property to inform children that there is a dangerous dog on the property. The city will also provide the owner with a tag to be affixed to the dog’s collar at all times identifying the dog as dangerous. The city will also add the dog to a map available on our website showing the registered sites of both potentially dangerous and dangerous dogs.

Please describe the enclosure the dog will reside in and attach a site plan showing the location of the enclosure. (“A “proper enclosure” per State Statue is defined as securely confined indoors or in a securely enclosed and locked pen or structure suitable to prevent the animal from escaping and providing protection from the elements for the dog. A proper enclosure does not include a porch, patio, or any part of a house, garage, or other structure that would allow the dog to exit of its own volition, or any house or structure in which windows are open or in which door or window screens are the only obstacles that prevent the dog from exiting. Chief of Police or designee would determine if the enclosure is appropriate in his or her sole and absolute discretion.”
